BOIL WATER ADVISORY

June 9, 2022
BWA 2022-06-02

In accordance with the Louisiana Department of Health's Sanitary Code and out of an abundance of caution, 106 metered customers beginning at 3085 Bayou Dularge Road to the end are affected by this Boil Water Advisory. Please see the attached map for a more detailed graphic representation of the Boil Water Advisory area. Customers are advised to boil their water to a hard rolling boil for at least 1 minute prior to consumption. Please visit www.ldh.la.gov or www.tpcw.org for more specific detail information concerning what to do when a Boil Water Advisory has been issued.

A main waterline next to the highway failed and the water had to be turned off to do the repair allowing the pressure to possibly drop below the required minimum of 20 psi.

Samples have been taken with results expected back as soon as possible. Remember to boil your water in a hard rolling boil for at least 1 minute prior to human consumption. Please like, share, and follow us on Facebook for information concerning your drinking water supplier and the results of water quality sampling on testing of your water.
