

FIRE HYDRANT METER RENTAL AGREEMENT

The use of a fire hydrant meter is absolutely prohibited for the purpose of drawing potable water from the Consolidated Waterworks District No. 1 water system, or for purposes more specifically defined as follows: (Drinking water, lavatory water, shower water, water used for cooking purposes, water used for brushing teeth)

By executing this rental agreement, each user assumes full responsibility for insuring that no water flowing through this hydrant meter(s) will be used for prohibited purposes. The undersigned accepts full responsibility for any illness and/or damage caused by the misuse of any such fire hydrant meter. (Protection of the public's health and safety must not be compromised by the misuse of hydrant meters.)

Key Renter Obligations Regarding Hydrant Meters

Before using any fire hydrant meter, the user shall contact the local fire department to report the specific address where the meter will be used. Meters shall not be moved to or used at any site other than the location disclosed in your rental agreement. All rentals are site specific and use on other than the disclosed location is expressly prohibited.

Hydrant meters shall be disconnected from the hydrant when not in use. At no time will a hydrant meter be left unattended while affixed to a fire hydrant.

Upon becoming aware of a fire fighting effort in the vicinity of the meter location, the fire hydrant meter shall be immediately disconnected from the hydrant.

All hydrant meters shall be returned undamaged and in working order. Any damage to the meter may result in the renter being billed for resulting repair cost.

It is the responsibility of the renter to secure the meter(s) in order to prevent theft. Should a meter be stolen or lost, the renter shall be billed for the replacement cost of such meter.

Any individual or entity that has an account with the District that is in arrears will not be eligible to rent a hydrant meter. All customer accounts must be current.

Hydrant meters must be available for consumption reading by the CWWD each month.

No meter shall be rented for use outside the boundaries of Terrebonne Parish

An appropriate air-gap must be provided on all trucks and/or equipment to be used

The person/entity renting a meter accepts full responsibility for all actions, and subsequent liability resulting from such actions, pertaining to the use of such meter(s).

THE UNAUTHORIZED USE OF POTABLE WATER IS ILLEGAL
