## BOIL WATER ADVISORY December 19, 2022 BWA 2022-12-03 Montegut

In accordance with the Louisiana Department of Health's Sanitary Code and out of an abundance of caution, 193 customers located at Humble Canal Bridge south to the end of the road, Hwy 55, at Bush Canal in the Montegut area are affected by this Boil Water Advisory. Please see the attached map for a more detailed graphic representation of the Boil Water Advisory area. Customers are advised to boil their water to a hard rolling boil for at least 1 minute prior to consumption. Please visit [www.ldh.la.gov](http://www.ldh.la.gov) or [www.tpcw.org](http://www.tpcw.org) for more specific detail information concerning what to do when a Boil Water Advisory has been issued.

While replacing a hydrant, the hydrant valve blew out and water pressure may have dropped below the acceptable minimum pressure level of 20 psi requiring this Boil Water Advisory notice. Water samples will be taken, and results published as soon as available before 5 pm on Wednesday, December 21, 2022.

Remember to boil your water in a hard rolling boil for at least 1 minute prior to human consumption. Please like, share, and follow us on Facebook for information concerning your drinking water supplier and the results of water quality sampling on testing of your water.
