APPLICATION FOR TIE-IN TO EXISTING ASBESTOS CEMENT PIPE

Effective April 18, 2005, the following items will be included in the determination of the fees for tie-ins to existing asbestos cement waterlines.

1. Material ----- Cost of material supplied by the District.
2. Labor ----- Amount of labor charged to the job from work orders.
3. Digging ----- Actual Charges from Digging Contractor.
4. Labor and Equipment Contractor ---- Actual charges from Labor & Equipment Contractor.
5. 40 per cent of the total of items 1 through 4.
6. Assessed charges are the sum of items 1 through 5 above to be applied to the deposit as stated below.

A **\$2,000 deposit** will be required upon application for an asbestos cement tie-in. This deposit will be credited toward the assessed charges for the tie-in listed below. Any remaining charges will be billed through invoice and payable within 30 days.
