BOIL WATER ADVISORY

September 6, 2022
BWA 2022-09-01

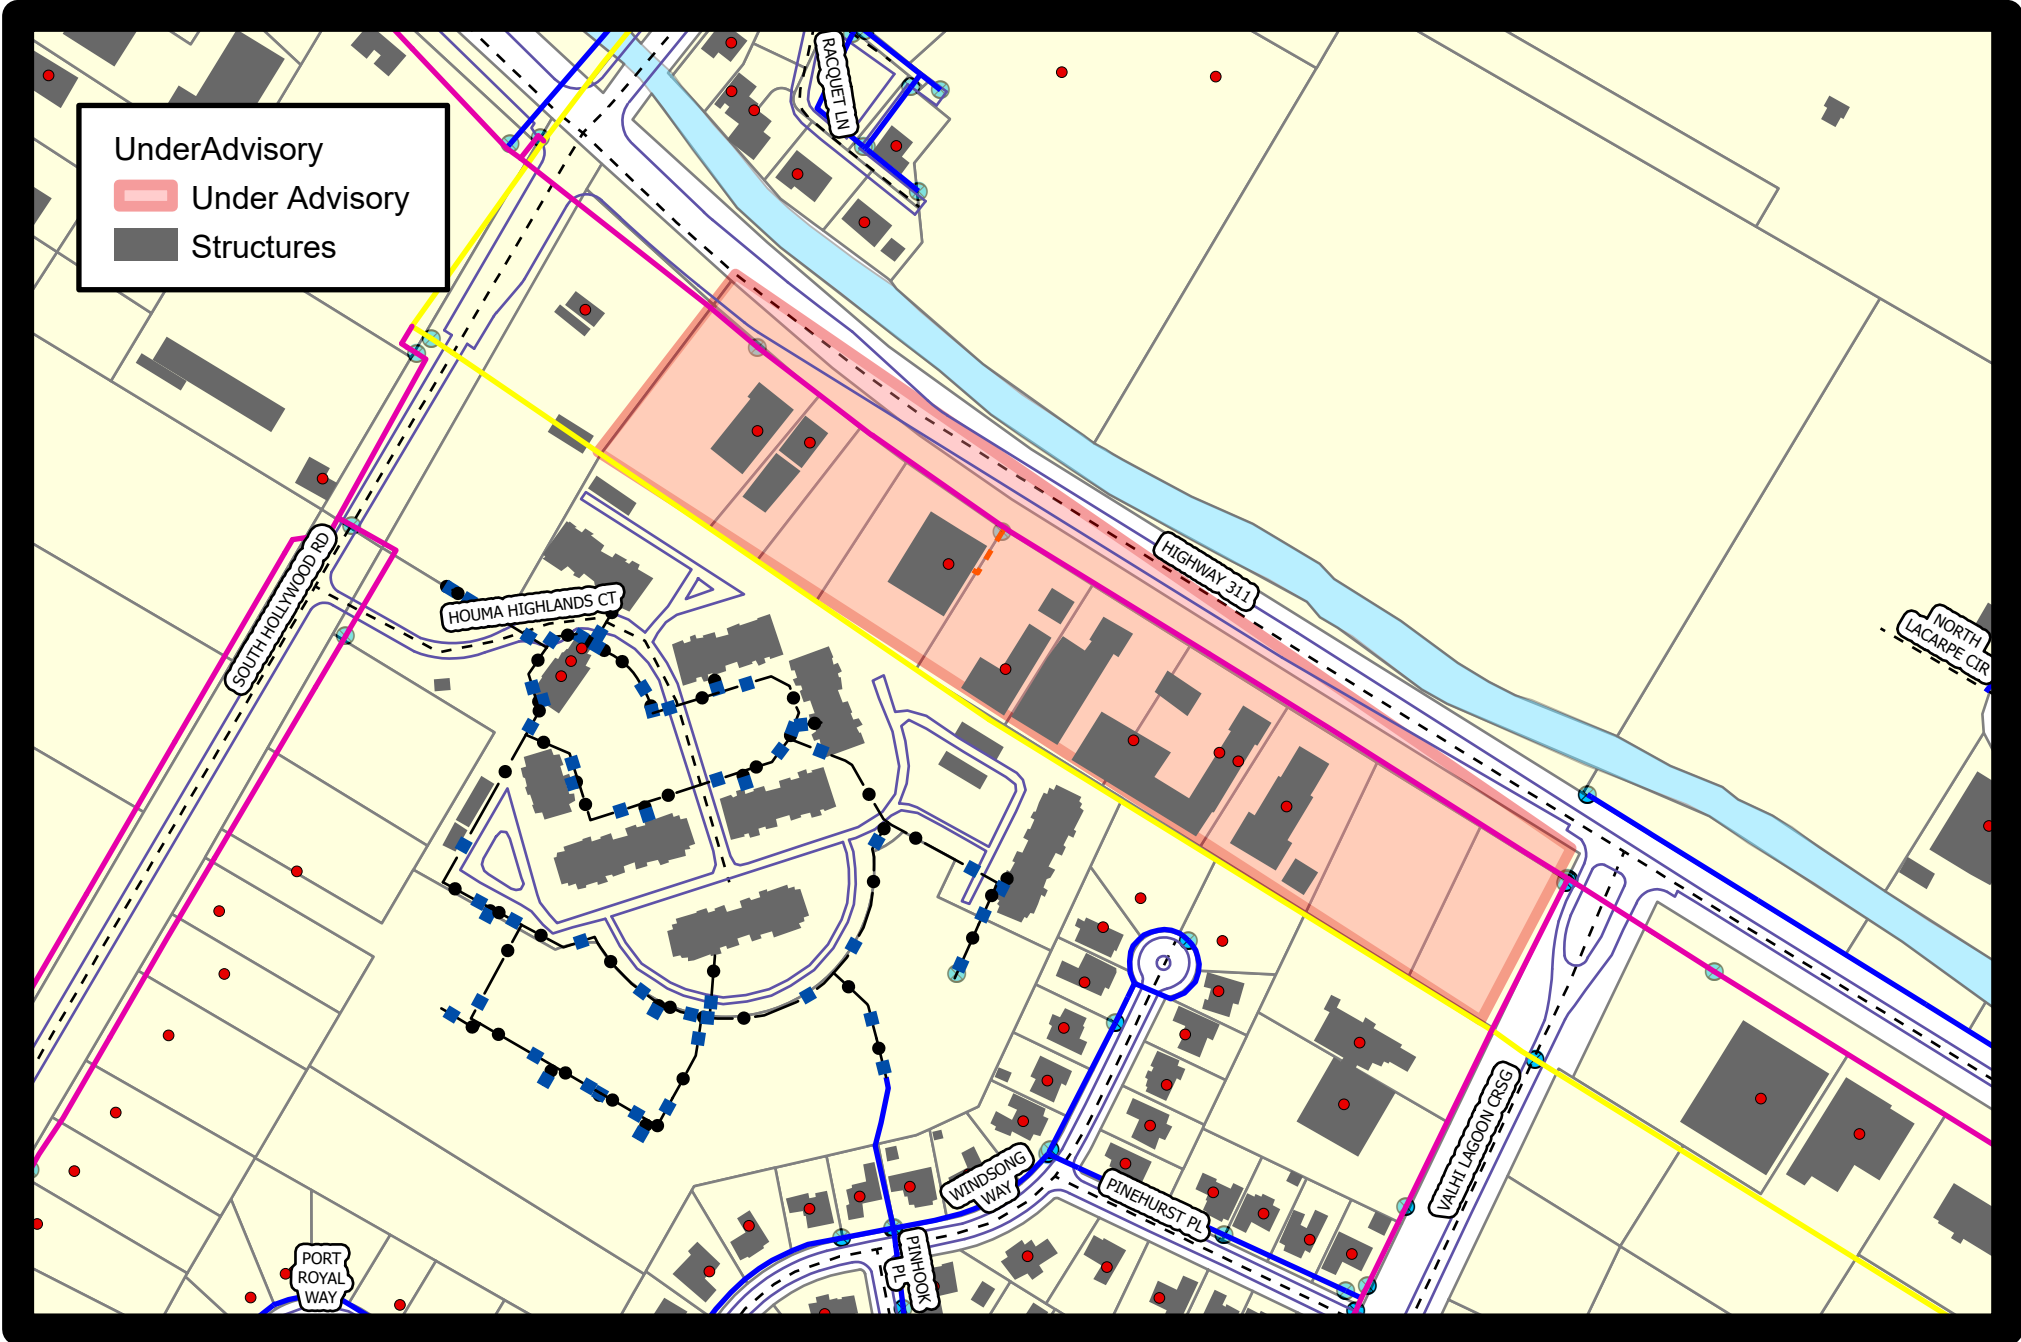

In accordance with the Louisiana Department of Health's Sanitary Code and out of an abundance of caution, 10 metered customers located along Hwy 311 from 5038 to 5142 in the Houma area are affected by this Boil Water Advisory. Please see the attached map for a more detailed graphic representation of the Boil Water Advisory area. Customers are advised to boil their water to a hard rolling boil for at least 1 minute prior to consumption. Please visit www.ldh.la.gov or www.tpcw.org for more specific detail information concerning what to do when a Boil Water Advisory has been issued.

Once repairs are complete, samples will be taken with results back no later than Thursday, September 9, 2022 at noon. A boring contractor damaged a service line requiring the water to be turned off to make the repair.

Remember to boil your water in a hard rolling boil for at least 1 minute prior to human consumption. Please like, share, and follow us on Facebook for information concerning your drinking water supplier and the results of water quality sampling on testing of your water.
