## December 24, 2022 BOIL WATER ADVISORY ISSUED

Please be advised that ALL of Terrebonne Parish is now under a Boil Water Advisory until further notice. The freeze effects have caused our water pressure to possibly fall below the minimum acceptable level of 20 psi. Out of an abundance of caution and due to the possibility of the low water pressure, we have issued this Boil Water Advisory.

If you have water, please boil for at least one (1) minute at a hard rolling boil prior to consumption. If you have no water, please follow the Boil Advisory once your water is restored.

Please visit [www.ldh.la.gov](http://www.ldh.la.gov) or [www.tpcw.org](http://www.tpcw.org) for more specific detail information concerning what to do when a Boil Water Advisory has been issued.

Once we have stabilized the pressure greater than 20 psi, we will perform bacteriological testing to prove the water is safe for human consumption and then lift the Boil Water Advisory.

Please like and follow us on Facebook for information concerning your public water system.

Michael A. Sobert  
General Manger
